Fabricator Responsibilities:

- Reading and understanding construction drawings assembly instructions.
- Taking part in production/fabrication meetings.
- Verifying dimensions and product specifications.
- Ensuring that all the required materials for fabrication are present.
- Ensuring that all components are properly built, aligned, and fastened.
- Ensuring that quality control standards are met.
- Maintaining a production schedule.
- Working within job budgets.
- Reporting and detailing product defects.
- Adhering to assembly safety standards.

Fabricator Requirements:

- High school diploma or GED.
- Experienced welder with both aluminum and steel.
- Experienced with various industrial equipment (e.g., circular saws, drill presses, brakes, punches, grinders, routers and cutting torches.)
- Good dexterity.
- Attention to detail.
- Good organizational skills.
- Physical stamina.
- Sign Fabrication is a plus

Benefits:

- 401 (k)
- Health Insurance
- Dental Insurance
- Paid Holidays & Vacation

Salary will be based on experience.
