

Sign Installer – Full Time

Our sign installers are responsible for the successful transportation and installation of a variety of signage types. They are required to review and ensure that all signage meets the required specifications for each project, prepare each sign for mounting, and manage the placement and installation of each sign as required. A successful installer is detail oriented, will demonstrate precision, is knowledgeable about the many different sign types and possess a sound understanding of the applicable construction and installation techniques.

Sign Installer Responsibilities:

- Successfully loading and transporting all signage, tools, hardware, and materials to the location safely
- Preparing the site for installation by removing old signage, preparing the surface or structure for new signage, and securing the electrical connections
- Ensuring the effective measurement, placement, connection, and installation of all signage
- Mounting and installing all signs in accordance with all safety protocols
- Clearing debris and materials from the site after each installation
- Clearing debris and materials from company vehicles and trailers after each installation
- Performing maintenance and repairs to signs, as needed
- Operating and maintaining the tools and equipment in accordance with safety protocols
- Maintaining all necessary communication with Project Management Team, Director of Operations and Director of Sales Operations daily. This includes properly taking completion photos and emailing them accordingly
- Properly completing all required paperwork as it pertains to logs, vehicle inspections, work orders and timecards daily
- Obtaining and maintaining all required licenses in a timely manner as set forth by the company

Sign Installer Requirements:

- High School diploma or GED
- At least two years' experience as a sign installer or similar
- Valid commercial driver's license and a clean driving record is a must (CDL preferred)
- Massachusetts & Rhode Island crane licenses are a plus
- Knowledge of electrical wiring, metal fabrication and welding are a plus
- Good knowledge of various types of signs including vinyl, channel letters, pylons, and monuments
- A sound understanding of the applicable installation methods, materials, and safety measures
- The ability to operate hand and power tools
- Physically fit and able to perform strenuous labor including lifting, climbing, working at various heights
- Able to work at various heights in the air without concern
- The ability to work in harsh weather conditions
- Willingness to work during evenings, weekends and overnights as needed

Benefits:

- 401(K)
- Health Insurance
- Dental Insurance
- Paid holidays & vacations

Salary will be based on experience.
